Ask HN: How many downvotes a day do you get? - Fizzadar Most people who answer a question on HN get -20 upvotes and -3 or 4 downvotes. If I were to guess I'd say most people I know who ask and answer gets 100-200 downvotes a day, but I am the odd man out on the spectrum of HN users who actually participate. So how many downvotes a day do you get? ===== iptacek I average about 30 votes a day, give or take, which is about half what others I know get. I only post twice a week (though I post more frequently before work), and so I don't consider my opinion to be any kind of "ground truth" on downvoting. Generally, there's no right answer to this question. Each of us gets downvotes all the time, and even high-score questions attract downvotes (particularly newer questions). ----- saurabh \- Nobody gets more than 100/day \- No one downvotes the same person more than 3 times a day
